Advanced technology

- Own technology for waste collection and street cleansing
- Leaders in waste recycling and energy recovery systems
- Experts in providing solutions at all stages of the water management cycle for all uses: human, agricultural and industry, meeting the needs of institutions and public and private organizations
- Specialists in bridges and ports with a high technical complexity
- Innovative processes for high speed lines, metro and tunnels
- Specialists in turnkey projects in the industrial sector

Comprehensive range of services throughout the whole value chain

Advanced technology and integrated range of products and services with high added value in all of its business areas

FCC Group

1.7. Value creation

Our incumbent position enhances our ability to benefit from the strong fundamentals of our core business areas

Environment

- Positive long-term outlook due to regulatory developments and environmental considerations
 - EU Waste Framework Directive requires member states to recycle at least 55% of their municipal solid waste by 2025 and 65% by 2035 plus landfilling down 10% also in 2035
- New opportunities offered by expected reforms in Spain on recycling and composting (2023)
- Expansion potential in existing platforms: USA, UK and some Central European countries

Water

- Positive long-term outlook due to regulatory developments and environmental considerations and water infrastructure gap
- Take advantage of the extensive experience in the integral water cycle management, to apply in business opportunities in countries with low PPP activity
- Growth potential in Europe and selectively in America and MENA

Construction & Cement

- Continued infrastructure gap in selected jurisdictions. Stringent management of cash flow generation and third-party risk
- Potential growth in Spain linked to clean energy, efficiency and related facilities.

Real Estate

- Combined recurring rental income with property asset build to rent) and residential housing development in high demanded areas

FCC Group

1.7. Value creation

Main references

Waste Collection in Port Saint Lucie / Florida (USA)

Contract for the collection of municipal and commercial waste for the 2 zones. 220,000 residents, 75 vehicles, 110 people. Investment of \$47 million. Backlog: \$450 million. 7 + 3 years.

2.1.Environment

Main references

Acquisition of Premier Waste Services LLC / Dallas (USA)

Commercial solid waste collection services company in the Dallas-Fort Worth metropolitan area for more than 20 years.

4,000 contracts, 59 vehicles.

Acquisition of Houston Waste Solutions / Houston (USA)

Commercial solid waste collection company in the greater Houston area. Owns and operates a transfer station for construction and demolition debris in the city.

3,000 clients, 40 vehicles.

2.1.Environment

Main references

Environmental Recycling Compound in Placer County/ California (USA)

Construction and operation of a municipal solid waste (MSW) environmental recycling compound of 130 hectares. 115 people / 650.000 tonnes per year. Investment of \$141 million. Backlog: \$1.5 billion. 10 + 5 + 5 years.

2.1.Environment

Main references

Recycling Facility / Dallas (USA)

Design, Financing, Construction and Operation. Term of operation: 25 years. **Backlog:** \$300 million. **Service:** 140,000 t. recyclables / year. **Best Recycling Facility of 2017 by the U.S. NWR.** Management of recyclables in the cities of Dallas, University Park, Garland, Rowlett and Mesquite (Dallas Metroplex Area).

2.1.Environment

Main references

Recycling plant / Houston (Texas, U.S.A.)

Design, Financing, Construction and Operation.. Up to 145,000 t of recyclables / year. Houston recyclable management, 2.3 million residents. Operation period: 15 +5 years. Backlog: \$250 million. **Best Recycling Facility of 2020 by the US NWRA.**

2.2. Water Activities

Municipal concessions for the management of the end-to-end public water cycle service

Management of public services such as caption, treatment, potabilization, distribution, sewerage and wastewater treatment, as well as water quality analysis.

Infrastructure operation, maintenance and operation services – O&M

O&M contracts ensure the continuous availability of quality water, which requires the dedication, technology, professionalism and experience necessary to achieve maximum excellence in the end-to-end water cycle processes.

Infrastructure Concessions – BOT

Design, construction, financing and long-term operation of infrastructures, treatment plants (drinking water treatment, purification and desalination) or re-use facilities through BOT-type contracts and take or pay mechanisms.

EPC models (Engineering, Procurement and Construction)

Execution of design and construction projects, without the operation of the same once the construction phase has been completed.

Spain. Main references

Mar de Alboran desalination plant in Nijar, Almeria

Recovery of the Rambla Morales desalination plant, abandoned in 2011.

The project involves a total investment of 99 million euros.

The desalination plant will become a technological benchmark and will include a photovoltaic power plant.

2.2. Water

Spain. Main references

Desalination plants in Ibiza, Balearic Islands

Client: Balearic Water Agency (ABAQUA).

Population: 150,000 inhabitants.

Management of the 3 desalination plants on the island of Ibiza (Ibiza, Santa Eulalia and San Antonio), with a production capacity of 45,000 m³/day, supplying 10 million m³ of water per year.

2.2. Water

Spain. Main references

End-to-end Water Management in Oviedo

Management since 1996.

Client: Oviedo City Council.

Population: 220,000 inhabitants.

Only municipality in Asturias with ozone drinking water treatment to generate 1,500 l/s.

2.2. Water

Spain. Main references

End-to-end Water Management in Salamanca

Management since 1997.

Client: Salamanca City Council.

Population: 144,000 inhabitants.

Pioneers in Spain in the application of R+D+i for the elimination of nutrients in wastewater treatment return water.

2.2. Water

Spain. Main references

End-to-end Water Management in Vigo, Pontevedra

Management since 1990.

Client: Vigo City Council.

Population: 294,000 inhabitants.

The largest hydraulic infrastructure in Galicia.

2.2. Water

Spain. Main references

End-to-end Water Management in Almeria

Management since 1981.

Client: Almeria City Council.

Population: 197,000 inhabitants.

Leading water service in Spain, home to several of the company's R&D projects.

2.2. Water

Spain. Main references

Water Supply and Sewerage in Algeciras, Cádiz

Management since 1995.

Client: Algeciras City Council. Joint venture (Emalgesa), in which Aqualia holds 49% and the City Council 51%.

Population: 122,000 inhabitants.

2.2. Water

Spain. Main references

End-to-end Water Management in Alcalá de Henares, Madrid

Management since 2004.

Client: Alcalá de Henares City Council. Joint venture (Aguas de Alcalá) in which Aqualia collaborates with Canal de Isabel II.

Population: 194,000 inhabitants.

2.2. Water

Latin America. Main references

Queretaro Aqueduct, Mexico

Management since 2011.

Project type: BOT – Build, Operate and Transfer (20 years).

Client: State Water Commission of Queretaro (CEA).

Population: 900,000 inhabitants.

The service includes the supply, pumping, treatment, gravity conduction, distribution and storage of water. A total of 128 km of pipeline, reservoir, tunnel (4.8 km), water pumps, reservoirs and drinking water treatment plant to generate 130,000 m³/day.

2.2. Water

Latin America. Main references

El Realito Aqueduct, Mexico

Management since 2011.

Project type: BOT – Build, Operate and Transfer (25 years).

Client: San Luis de Potosi State Water Commission (CEA).

Population: 430,000 inhabitants.

Water supply and treatment from the El Realito dam to San Luis de Potosi. The project has a total of 132 km of pipelines, water pumps, reservoirs and a water treatment plant, generating 86,400 m³/d.

2.2. Water

Latin America. Main references

End-to-end Water Management in Colombia

Management of the end-to-end water cycle since 2019 in 25 municipalities in 7 departments.
 Population: more than 1,000,000 inhabitants.

2.2. Water

Latin America. Main references

El Salitre WWTP, Colombia

Population: more than 3,000,000 inhabitants.

Capacity: 600,000 m³/day.

Expansion and improvement of the El Salitre wastewater treatment plant in Bogotá.

2.2. Water

MENA. Main references

Mostaganem Desalination Plant, Algeria

Client: SONATRACH/AEC.

Type of project: Design and Construction (completed in 2012), and Operation & Maintenance through a Public–Private Partnership.

Population: more than 1,200,000 inhabitants.

Capacity: 200,000 m³/d.

One of the largest desalination plants in Africa.

2.2. Water

MENA. Main references

El Alamein Desalination Plant, Egypt

Client: Ministry of Defence.

Project type: Design and Construction (completed in 2019), and Operation & Maintenance (until 2027).

Population: up to 1,000,000 inhabitants.

Capacity: 150,000 m³/d.

First and only desalination plant to be built by a single company in Egypt, and a Spanish company at that. One of the 3 best plants in the world 2020 by GWI and the best in Egypt.

2.2. Water

MENA. Main references

New Cairo WWTP, Egypt

Management since 2009.

Client: NUCA (Ministry of Housing).

Type of project: Financing, Design and Construction (completed in 2013), and Operation & Maintenance (18 years).

Population: 1,000,000 inhabitants.

Capacity: 250,000 m³/d.

First Public–Private Partnership project in Egypt.

2.2. Water

MENA. Main references

Abu Rawas WWTP, Egypt

Client: CAPW (Ministry of Housing).

Project type: Design and construction (ongoing), and Operation & Maintenance.

Population: 5,500,000 inhabitants.

Capacity: 1,600,000 m³/d.

Largest EPC (Engineering, Procurement and Construction) of a biological plant in Africa.

2.2. Water

MENA. Main references

End-to-end Water Management and O&M in Saudi Arabia

Management since 2020.

Type of project: Management, Operation and Maintenance of the end-to-end water cycle in 8 provinces of the North and South Arabian Clusters: Assir, Jizan, Al Baha, Najran, Qassim, Hail, Al Jouf and Northern Borders.

Population: more than 8,000,000 inhabitants.

2.2. Water

MENA. Main references

Supply Network in Riyadh, Saudi Arabia

Management since 2011.

Client: National Water Company (Government of Saudi Arabia).

Type of project: O&M – Operation & Maintenance (5 years).

Population: more than 3,000,000 inhabitants.

Reduction of NRW and optimisation of part of the supply networks.

2.2. Water

MENA. Main references

Hydraulic Installations at Sohar Port, Oman

Client: MAJIS INDUSTRIALSERVICES (Government of Oman).

Type of project: O&M – Operation & Maintenance (20 years).

This contract includes numerous infrastructures for water caption and pumping, desalination, supply, treatment and sewerage.

2.2. Water

MENA. Main references

End-to-end Water Management in Al Ain, UAE

Management since 2012.

Type of project: Water treatment and sewerage system.

The initial contract established a period of seven years, until 2019, for a value of 76.3 million euros. Extension of 7 years.

2.2. Water

MENA. Main references

End-to-end Water Management in Abu Dhabi and some islands, UAE

Management from 2019.

Project type: End-to-end Water Management (7 years) of Abu Dhabi and the adjacent islands of Al Reem, Al Maryah and Al Saadiyat.

Capacity: up to 280,000 m³/day (over 100 billion litres per year).

The project manages 1,320 km of networks and 54 wastewater pumping stations.

2.2. Water

MENA. Main references

Al-Dhakhira WWTP in Qatar

Management since 2022.

Client: Public Works Authority (Government of Qatar).

Type of project: Design, Construction, Operation & Maintenance.

Population: more than 200,000 inhabitants.

Capacity: 56,200 m³/day.

2.2. Water

MENA. Main references

End-to-end Water Management in Georgia

Management since 2022.

Population: 1,400,000 inhabitants.

The project includes infrastructure in Tbilisi, Miskheta and Rustavi, including: the Zhinvali dam and reservoir, with a capacity of 520 hm³, 7 drinking water treatment plants, 1 wastewater treatment plant, 58 pumping stations, 118 reservoirs and 4,300 km of distribution networks and 1,700 km of sewerage networks.

2.2. Water

Europe. Main references

End-to-end Water Management in Ostrava, Czech Republic

Population: 1,200,000 inhabitants.

Capacity: 279,682 m³/day.

Main operator in the Moravia and Silesia regions, managing the sewerage network in 76 municipalities with a total of 1,844 km, a supply network of 5,061 km, 3 large water treatment plants, 68 wastewater treatment plants and 157 pumping stations.

The project is one of the few existing cases of cross-border water supply, serving 100,000 inhabitants in Poland.

2.2. Water

Europe. Main references

End-to-end Water Management in Île de France and Brittany, France

Management from 2019.

Population: 400,000 inhabitants in 9 communes in the Ile de France and Brittany regions.

2.2. Water

Europe. Main references

End-to-end Water Management in Caltanissetta, Italy

Management since 2006.

Population: 273,000 inhabitants.

Management of the end-to-end water cycle in 22 municipalities in the province of Caltanissetta in Sicily.

The project has a water network of 993 km, a pipe network of 180 km, a sewerage network of 778 km, 21 water treatment plants, 1 drinking water treatment plant, 21 wells and 42 tanks.

2.2. Water

Europe. Main references

End-to-end Water Management in Elvas, Portugal

Management since 2009.

Population: 74,000 inhabitants.

Management of more than 12,500 wastewater supply and treatment contracts in the municipalities of Elvas, Vila Boim, Terrugem, Vila Fernando, Barbacena, São Vicente and Santa Eulalia.

Backlog (Dec. 31, 2022)
€ 120 M

Figures in million euros

*Includes only two months of Realia and Jezzine consolidation.
*(excluding building staff)

2.5. Real Estate

Main references / Office Renting

Torre Realia / The Icon

The world's first leaning office tower is part of the nerve centre of Madrid's economic activity. Designed by the first ever Pritzker Prize winner, Philip Johnson, and his partner John Burgee, its post-modernist style and its 15° tilt make it an essential part of Madrid's skyline.

Total surface area: 28,424 m²
Storeys: 24 Floors + 3 Underground floors
Parking capacity: 351 Spots

Torre Realia BCN

Prominent building in the Plaza de Europa Business Area. Designed by one of the world's most influential architects, Japan's Toyo Ito (Pritzker Prize 2013) in collaboration with the b720 firm, it forms a unique architectural ensemble in its union with the Hotel Porta Fira. Standing 110 m high, it is one of the tallest buildings in the city.

Total surface area: 31,960 m²
Storeys: 22 Floors + Basement
Parking capacity: 399 Spots

2.5. Real Estate

Main references / Office Renting

Principe de Vergara 132, Madrid

The building was completely refurbished in 2012, creating an avant-garde space inside with exclusive materials and design. It boasts a spectacular, modern and unique architecture, with a main façade made of glass on an aluminium structure.

Total surface area: 8,800 m²

Available storeys: 11 Floors

Parking capacity: 140 Spots

Paseo de la Castellana 41, Madrid

It is one of the most representative buildings of modern architecture in the centre of the Prime area of the capital. Its four glazed façades with curtain wall system give prominence to natural light, creating luminous interior spaces. The rooms are characterised by their spaciousness, open-plan design and cutting-edge technology.

Total surface area: 4,590 m²

Available storeys: Ground floor + 7

Parking capacity: 66 Spots

2.5. Real Estate

Main references / Shopping Malls

The Plaza Nueva Shopping Complex is designed in the form of a square and is being built to complete the commercial offer in the south of Madrid and to provide a response to the strong demand from a catchment area of more than one million people.

Gross Leasable Area (GLA): 52,636 m²
Annual visitors: 6.4 million
Parking capacity: 2,987 spots
Shops: 34

This modern shopping complex, with four floors and three basement car parks, with more than 6 million visitors a year, has become the nerve centre of social activity in Guadalajara. Ferial Plaza has a wide and selected commercial and leisure offer and a magnificent location with great visibility from the A2.

Gross Leasable Area (GLA): 32,523 m²
Annual visitors: more than 6 million
Shops: 95
